我想用印象表現一切
但 我的左腦主宰了一切
我左手拿起長矛
頑強抵抗著.....

A black silhouette of a city skyline is positioned at the bottom of the frame against a white background. The skyline includes various building shapes, some with unique architectural features like pointed tops or multiple levels. The text is located in the upper right quadrant of the image.

環繞在混凝土砌起的叢林
我 想如變形蟲
不斷將自己延伸
不斷的再延伸
直到任何不可能變成可能

2009 年春
涼爽的微風
吹拂著
我 望著往來穿梭的人們
不斷的對自己的心
吶喊著
我知道
這是一個開始
是一個機會的開始
要跟李根在一樣
對人們開始吶喊

New improvements on the web site - Subcategories
We're coming with new improvements for the convenience.

We've recently changed the categorized categories about and by creating subcategories so to help the components better organized and easy to browse. This new feature is placed to help our clients when they're looking for a specific component.

Some subcategories have already been filed in with components but we're still working on distributing all of them to the appropriate subcategories.

Hopefully you'll find this extremely helpful in your process of purchasing Flash components.
