

SHOWFLAT - MANTIN HEIGHTS      HONG KONG

I have given a 1-room studio flat for designing.

Utilise what is available to you wisely. An open kitchen which allows you to share and to taste at once with fellows or loved ones - not a single moment should be wasted in dullness.

Bedroom is among all the most crucial part. I step up the box to maximize the space. A entertainment room design had also increased the enjoyment and relaxation.
