

CK 視窗 99 軟膠囊

打開亮眸的靈魂配方

每天兩粒，葉黃素 30mg

複方成分

Lutemax 2020

1. 結合了兩種最廣泛研究和認識到眼睛健康的成分，葉黃素和玉米黃質的異構體，為葉黃素與玉米黃素結合健康比例成份。
2. 獲得全球商品差異化優秀獎。
3. 最多

山桑子萃取(Bilmax)

美國 FERLUX S.A.大廠

1. 100% 純天然莓果萃取，完全不含有害溶劑或其他添加物。
2. 34:1 的高比例，高品質萃取，富含花青素 20%。
1. 製程專利(專利包攬)，分子小，具有保護作用。
2. 保留完整的莓果成分，含莓果纖維。

發酵紅蔘-CK 人蔘皂苷

1. 韓國大廠生產，專利發酵技術：
由韓國養樂多大廠運用 WIPO 專利技術，比一般紅蔘的吸收率比較提升 115 倍。
2. 各種研究結果顯示人蔘的成份之中最具指標的是人蔘皂苷(Ginseng Saponins)。一般把原始人蔘中含量低於 0.01% 以下的皂苷 稱為 CK 稀有人蔘皂苷。
3. 促進眼周新陳代謝，營養補給。
4. 維生素及礦物質：
酵母硒、酵母鋅、維生素 A、維生素 B1、維生素 B2、維生素 B6、維生素 B12
維生素 E

Lutemax 2020 provides:

- ☑ The two most widely researched eye health ingredients, lutein and zeaxanthin in a single ingredient source
- ☑ Enhanced levels of zeaxanthin isomers for optimum nutrition and ingredient efficacy*
- ☑ Affordable cost-in-use
- ☑ Effortless upgrade for formulators

Lutemax[®] 2020, premium lutein with enhanced levels of zeaxanthin isomers for a complete eye health supplement.*

To help address common inadequacies in diet and support healthy visual function, Lutemax[®] 2020 supplies a combination of lutein and zeaxanthin isomers that help maintain:

- Healthy vision*
- Macular health*

Award

2009年，美国新泽西，美国植物提取物、健康及创新原料西部展，CAPSIMAX获得最具创新食品原料奖

2011年，瑞士日内瓦，Vitafoods展，CAPSIMAX获得NBT最具创新产品奖

2011，OmniActive公司的叶黄素与玉米黄质眼部保健成分Lutemax 2020获得Frost & Sullivan公司2011全球产品差异化优秀奖。

What makes Lutemax® 2020 the most advanced eye-health ingredient on the market today? Four critical factors.

1. A revolutionary combination of all lutein with enhanced levels of zeaxanthin

Many eye health supplements supply only one necessary carotenoid for macular health—lutein. While lutein is a potent antioxidant that provides a significant amount of the total carotenoid content of the eye, healthy eyes require more than lutein alone. Lutemax® 2020 combines lutein with zeaxanthin isomers (RR- and RS-zeaxanthin), which are BOTH critical players in supplying the macula with vital, protective nutrients.

2. Effective levels in scientifically balanced ratios

Lutemax® 2020 not only supplies both lutein and zeaxanthin isomers to support eye health, but it also delivers these nutrients at significantly higher levels. Lutemax® 2020 includes a scientifically balanced combination of lutein and zeaxanthin isomers to enhance absorption of both of these vital carotenoids.

3. Integrated supply chain

Lutemax® 2020 is manufactured under a fully integrated supply chain. This

process starts with the cultivation of marigold flowers and continues through the extraction and manufacturing of beadlets, oils and powders. OmniActive works hand-in-hand with a dedicated group of farmers in India to grow the marigolds free from feed-grade additives and with strict controls over preservatives and pesticides. This vertically integrated process helps ensure the quality and performance of the raw material.

4. Proprietary delivery technology

Lutemax® 2020 benefits from OmniActive's extensive expertise in proprietary delivery technologies. Lutemax® 2020 is available in three proprietary delivery methods: vegetarian beadlets, oil suspensions and dry powders.

AWARDS

Frost & Sullivan 2011 Global Product Differentiation Excellence Award for Eye Health Ingredients (Lutein & Zeaxanthin)

Frost & Sullivan monitors companies in the search of outstanding achievements in manufacturing and product innovations. This recognition shines global attention on Lutemax 2020 and how it has excelled in each of these categories.

While many eye health ingredients contain highly researched lutein, Lutemax 2020 is the only one to have a unique combination of lutein with zeaxanthin isomers in a balanced ratio. In addition to its unique composition, Lutemax 2020 is produced under a fully integrated supply chain operation that begins with the cultivation of marigold flowers and continues through proprietary extraction and manufacturing processes. The result is a stable, effective eye healthy ingredient that is truly differentiated in today's marketplace, and one that is easy to incorporate into new and existing eye health formulations.

What benchmark criteria factored into the award?

For the Product Differentiation Excellence Award, Frost & Sullivan measured ingredient performance against key competitors according to the following benchmarks:

- Unique features
- Quality assurance
- Current market acceptance

- Growth potential
- Positive brand perception

According to Frost & Sullivan's custom decision support matrix, OmniActive higher than other eye health ingredients in each of the above mentioned categories. The award made particular mention of OmniActive's integration of lutein and zeaxanthin into a single ingredient, their proprietary OmniBead beadletting technology and their integrated supply chain.
